

WB Power Services (WBPS) was first established in 1983 and since then we have grown significantly in size and service capability. Today, we provide critical power services to some of the UK's most important businesses and organisations, ensuring essential services are protected. We proud to retain our family values on a national scale as we strive to be the biggest and the best power generation company in the UK.

# CASE STUDY

## LOGICALIS DATA CENTRE

Logicallis and MITIE Technology & Infrastructure Ltd commissioned WB Power Services Ltd to provide a power generation and backup solution for their Slough data centre. This included the provision of four acoustically attenuated 2250kVA generators designed to meet requirements of 75dba @ 1m, N+N configuration.

They included a complete fuel storage solution to meet the latest PPG regulations with a bulk tank fitted beneath the generator acoustic enclosures. The project was designed and managed by our in house technical team and included delivery, installation, full testing and commissioning with on-going maintenance schedules.

## PROJECT OVERVIEW

**2250kVA**

**GENERATOR INSTALLATION**  
Installation of 4x Kohler-SDMO  
2250kVA generators

## KEY REQUIREMENTS

**GENERATOR INSTALLATION**  
**FUEL TANK INSTALLATION**  
**NOISE RESTRICTIONS**
